

**Introduction to the Share capital allocation
mechanism of IWM International Mall**

Execution time: March 15, 2015

In order for our cooperation to last forever, IWM International Mall expresses its sincere promise to all shop owners around the world.

Introduction to Share capital of IWM International Mall:

As a world-renowned cross-border e-commerce platform, IWM International Mall has huge development potential and broad future prospects. As a future cross-border e-commerce giant, IWM International Mall's development process is full of store owners' dedication and efforts. In order to give back to the store owner better. In order to ensure that the actual control of the company is firmly in the hands of all store owners around the world, IWM International Mall has developed a complete equity mechanism.

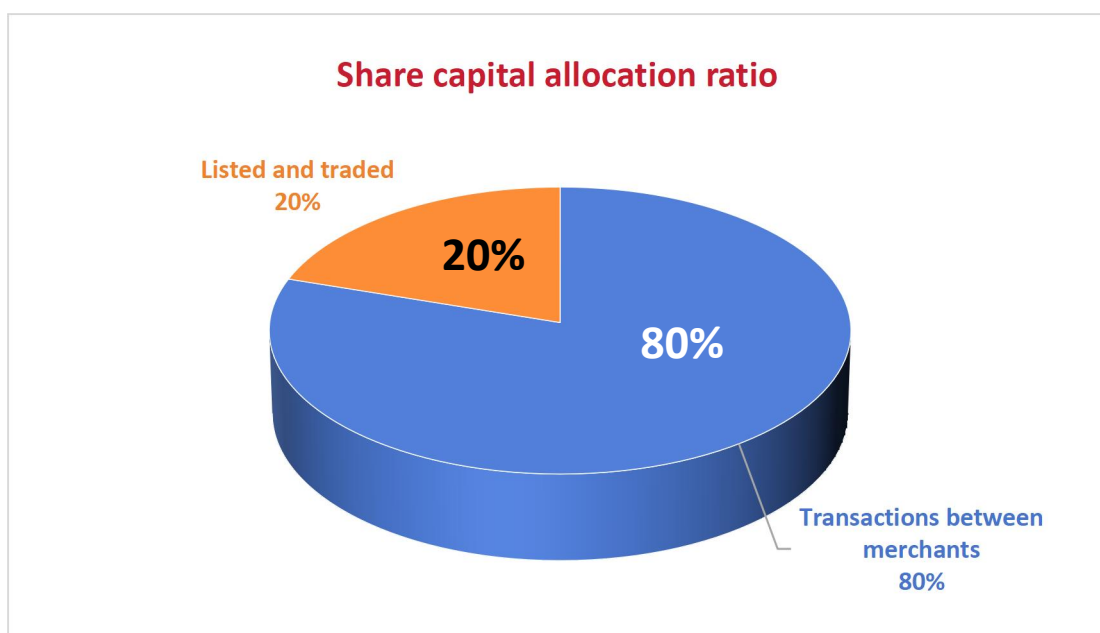

The total number of online stores that IWM International Mall can provide rental cooperation with around the world:

80.000.000

1. Limitations on the number of “Share capital”

- IWM International Mall only provides 80 million leasing cooperative online stores around the world, and the corresponding total number of "Share Capital" is 30 billion shares. Before "Share capital" is allocated, the minimum price of 1 "Share capital" is US\$1. When the 30 billion “Share capital” is allocated, “Share capital” internal transactions and listing transactions will begin. By then, the value of "Share capital" of IWM International Mall will usher in explosive growth.

2. The proportion of transactions between merchants and listed transactions:

- In order to avoid the risk of a decrease in the number of store owner shares due to the large inflow of capital, resulting in a change in actual control. IWM International Mall strictly stipulates that the proportion of "Share capital" is allocated as:
- 80% of "Share capital" is limited to transactions between merchants
- 20% of "Share capital" is limited to listing and trading
- According to this proportional distribution, the actual control of IWM International Mall will never be affected by the capital market, and its control will always be in the hands of the store owner.

Ordinary online store	Maximum shareholding: 200 shares
Premium online store	Maximum shareholding: 500 shares
Agent online store	Maximum shareholding: 1000 shares
Premium agent online store	Maximum shareholding: 2000 shares
Warehouse Partner	Maximum shareholding: 10000 shares
Five-star online store operator	Maximum shareholding: 50000 shares

3. Allocate the number of "Share capital" holdings according to the level of the online store:

- "Ordinary online store" Maximum shareholding: 200 shares
- "Premium online store" Maximum shareholding: 500 shares
- "Agent online store" Maximum shareholding: 1000 shares
- "Premium agent online store" Maximum shareholding: 2000 shares
- "Warehouse Partner" Maximum shareholding: 10000 shares
- "Five-star online store operator" Maximum shareholding: 50000 shares
- This fully reflects the support and recognition of IWM International Mall for store owners at different levels.

3. Regulations on stopping distribution of “Share capital” :

- When the total "Share capital" of IWM International Mall is distributed, no new "Share capital" will be added. The amount of "Share capital" held by all store owners around the world will become a fixed value, but the value will follow the market increase.
- New store owners who join after the total "Share capital" is distributed will not be able to enjoy the "Share capital" distribution policy.

Detailed introduction to transferring "Share capital" when upgrading your online store:

- Share capital is the stock that IWM International Mall allocates to you based on the value and profit created by your online store.
- When your online store becomes a Premium online store, you can transfer and withdraw 10% of the total Share capital
- When your online store becomes an Agent online store, you can transfer and withdraw 20% of the total Share capital
- When your online store becomes a Premium agent online store, you can transfer and withdraw 30% of the total Share capital
- When you become an Advanced Agent Online Store, you will get another identity and become the "Shareholder" of IWM International Mall in that region or country. and will build and operate the "Premium agent cooperative warehouse" as a partner.
- Note: Ordinary online store (non-shareholders), Premium online store (non-shareholders), Agent online store (non-shareholders), Premium agent online store (shareholders)

Regulations to stop upgrading online store transfers of "Share capital":

- When all 80 million online stores in IWM International Mall are rented out. Upgrading the online store transfer "Share capital" will be stopped.
- When the total "Share capital" of IWM International Mall is allocated. Upgrading the online store transfer "Share capital" will be stopped.

"Share capital" is the only official equity recognized by IWM International Mall in the stock trading market. This equity is based on the underlying logic of corporate value, and the ultimate beneficiary will also execute it in a way that the more "Share Capital" they hold, the greater the income. This distribution method reflects the positive relationship between effort and return, investment and return, and also provides clear revenue expectations for hard-working store owners and investors.

As an important asset of a company that is about to go public, "Share capital" is of immeasurable value. Once "Share capital" begins to circulate and trade, its market value will grow like a volcanic eruption, which undoubtedly provides shop owners and investors with huge opportunities for wealth growth.

Summary: The "Share capital" equity of IWM International Mall is a unique and attractive investment method. Shop owners and investors should seize this opportunity, actively participate in the development process of the enterprise, and share the wealth brought by the growth of the enterprise.
